Black Is the Fashion for Dying Jonathan Latimer,2014-04-29 In Hollywood, a screenwriter gets involved in an impossible murder In a steamy tropical jungle, a sinister American woman pushes the natives too far and gets exactly what she deserves: a rusty knife buried deep in her back. At least, that is the way the movie is supposed to end. But when the loathsome starlet Caresse Garnet learns her character is about to be killed off, she refuses to die, forcing the studio to rewrite the ending the night before the scenes are to be shot. While hammering out a happy ending for Hollywood's most reviled actress, screenwriter Richard Blake discovers a naked blonde in his driveway, sitting in a parked car and sucking down exhaust. She is the first clue in an unfathomable Hollywood mystery that will teach Caresse

Garnet that though she may get to dictate when her characters die, in real life, it is not up to her.

Across The Border: The Successes And Failures Of

Operation Rockcrusher Major Donald V. Phillips, 2014-08-15 This study examines the planning, execution, and results of US military involvement in the 1970 Cambodian incursions. Named Operation Rockcrusher, the attacks targeted North Vietnamese sanctuaries in officially neutral Cambodia. Strategic guidance for the operation reflected the Nixon administration's desire to proceed with troop reductions and quickly "Vietnamize" the war in Southeast Asia. Efforts to set conditions for a U.S. withdrawal from Vietnam, including a covert bombing campaign of Cambodia, failed. These factors, along with a deteriorating political situation within Cambodia, led to approval of the assaults. The thesis describes the operational and tactical objectives that were derived from the strategic situation. Then, by discussing key portions of the campaign, the study examines how well the US Army accomplished these objectives. Reviewed within the context of selected battlefield operating systems, the operation reveals a decided "mixed bag" of success and failure. The study highlights lessons that may be appropriate to today's lower intensity conflict environment and force structures. It also promotes the need to synchronize goals and objectives throughout the levels of war. It concludes that attritional warfare, a dubious legacy from Vietnam, remains a danger to the Army today.
